

## Technical sheet Bananas Tucan

Criteria	Description
<b>Fruit specifications</b>	
Age	9-10-11 and 12 in the weeks authorized by the marketing company
Length	20.3 cm from flesh to tip, with a tolerance of two segments (19.05 cm)/ box.
Fruit Grade	39 (minimum) to 47 (maximum)
<b>Number of fingers</b>	
Minimum	3 fingers (max 2 segments per box), 4 fingers (max 2 segments per box)
Maximum	8 fingers
<b>Number per box</b>	
Fingers per box	maximum 110
Segments per box	maximum 17
<b>Weight per box</b>	
Net weight	17.4 kg
Gross weight	18.6 to 18.8 kg, the box weight estimated at 1.2 kg
<b>Post-harvest application</b>	
Application system	Hydraulic chamber/back pump
Preparation of alum	24 hours before the start of the cut - at 1%
Cocktail: Rally 40 WP (Myclobutanil) + Amistar 50 WG (Azoxystrobin)	0.5 g of Rally/L of water-alum + 0.5 g of Amistar/L of water-alum; that is, 10 g of each fungicide per 20 liters of water-alum
N-Large (Gibberellic Acid)	800 ppm (20 cc per L of mixture, 400 cc for 20 L of mixture)
Mixing volume per tray/hydraulic chamber	180 cc, divided as follows: 160 cc mix (TXA-8001 nozzle chamber) + 20 cc mix+N-large (pump-8001 nozzle)
Mixing volume per tray/back pump	110 cc, divided as follows: 90 cc cocktail mix (pump nozzle - 8002) + 20 cc cocktail mix + N-large (pump nozzle 8001)

Flaw	Code	Defect tolerance in packing plant
Dry scars	MR	≤1 cm2
Living scars	SRV	0
Maturity spot	MS	Mild: ≤0.50 cm2. Severe and cracked: 0
Broken neck	-	0
Mutilated	MF	0
Knife cut	CT	0
Speckling	SK	≤1 cm2 mild to moderate. Colonies: 0
Yellow tip	YB	0
Sooty mold	YE	Mild: ≤0.50 cm2 in crown
Flowers	FL	0
Cochineal	WI	0
Spiders/insects	FM	0
Insect damage	INS	≤0.50 cm2
Segment with sanitation/box	NS	2 segments per box
Red oxide - stickers	RR-FF	0
Residue - round fruit	RE-RF	0
Mature - soft green	RT-SG	0
Rotten finger	FR	0
Cigar tip	PC	0
Dry Latex	LS	≤1 cm2

Material specifications	
17K Base	Code BAS6
RF 17K Cap	Code TAP5
EB Fairtrade Sheet 20x26 x 1.5 R1000 Plastic division	Code 10202
Tucan Rac Stamp x 4000 units	Code 40112
17k polyback bag (30.5" x 46" x 32" x 0.8) pre-cut	Code 10125
Rubber band	Code 14001
1 mm white foam sheet P500 33x35 cm	Code 10201
European stowage (green block, 1 m x 1.2 m)	Code 14003
Kraft corners 218 cm	Code 30107
Mini Kraft corner protection 18.4 cm, 14 reinforcements on the 1st level	Code 30115
SSCC Onkel Tuca Label	Code 50221
GGN Sticker	Code 050208

Traceability	
<b>1. SSCC Label - EAN 13</b>	
Contains: IBM of the farm - serial number of the pallet, brand name and the entire label is white in color.	
It is located on level 8, on the 4 sides of the pallet, right box, right side of the box.	
<b>2. GGN Seal</b>	
IBM farm - GGN code - ICA registration - farm address.	
The labels are located in each box in the corresponding box.	
<b>3. Wet seal - shows the current week and the corresponding day, like this:</b>	

Día de corte	
Semana	
Monday	01
Tuesday	02
Wednesday	03
Thursday	04
Friday	05
Saturday	06

Packing lines (normal-length)	
First	Large segments up to 9.9" long
Second	Medium or large semi-curved segments
Third	Small segments (incl. 2 7.5" segments)
Palletizing	
Strap color	White
Strapping	All levels - with braiding at level 9
Boxes per pallet	55 boxes / 5 per level - mini pallet 44 boxes
Strapping	All levels - with braiding at level 10

Plan for placing corner reinforcements on pallets  
\* 55 boxes (14 pieces of 18.4 cm) below:
